CAREER OBJECTIVE

Computer Science (Data Science) undergraduate seeking a Software Engineer role. Strong foundation in technical troubleshooting, REST APIs, databases, Java, and web technologies, with hands-on internship experience building AI and web applications. Customer-focused, adaptable, and quick to learn, with strong problem-solving, analytical thinking, and communication skills. An interest in psychology, chess, and suspense & thriller films reflects curiosity, strategic thinking, observation, and attention to detail.

TECHNICAL SKILLS

Programming Languages	Java, Python
Frontend Technologies	HTML, CSS, React.js
Backend & APIs	Django, REST APIs
Data and AI	NumPy, Pandas, Model Deployment
Database & Tools	MySQL, Git, GitHub, Power BI
Soft Skills	Critical thinking, Data-driven decision making, Project ownership

INTERNSHIP EXPERIENCE

Artificial Intelligence & ML Intern | Sathtern | Virtual / Remote | 3 Aug 2026 –3 Sep 2026

- Developed AI/NLP proof-of-concept applications including an AI Chatbot, Resume Analyzer, and using Python and NLP concepts.
- Worked on dialogue flows, document/text processing, sentiment classification, output evaluation, and iterative workflow refinement.
- Tested application behavior and analyzed model/application outputs to improve usability, reliability, and issue resolution.

Web Development Intern | Pinnacle Labs Pvt Ltd | Remote | 3 Aug 2026 – Present (16 Sep 2026)

- Developed GlobalPulse, a global news aggregation platform, and Harbor, a personal task workspace with list and board views.
- Applied REST API integration, frontend/backend development, databases, responsive UI design, debugging, and data-driven workflows.
- Built functional user-facing features with emphasis on usability, maintainable workflows, API-driven data, and reliable application behavior.

PROJECTS

Vision Text Anomaly Detection | React, FastAPI, PyTorch, OpenCV

- Built an AI-powered computer-vision proof of concept for anomaly detection with image upload, anomaly scoring, heatmap visualization, segmentation masks, and PDF report generation.
- Integrated PyTorch inference with FastAPI REST backend & processed image inputs through a complete model-to-application workflow.

GlobalPulse & Harbor | React, Node.js, Express, MongoDB, REST APIs

- Developed full-stack productivity/news applications featuring API-driven data workflows, task CRUD operations, search/filter experiences, project organization, and responsive interfaces.

EDUCATION

Adichunchanagiri Institute of Technology, Chikkamagaluru (VTU) — B.E., Computer Science & Engineering (Data Science) | CGPA: 8.4/10 | 2023–2027

CERTIFICATIONS

IBM SkillsBuild – Lifelong Professional Skills (Aug 2026) | AI-Data Engineering Analyst – NASSCOM (Skill India) (Aug 2026)
Java Software Developer (Grade A) – Infosys Springboard × ICT Academy (Jul 2026) | AI ML Projects – Simplilearn SkillUp (Aug 2026) | Full Stack Development using Django Framework e-SwaRa Technologies × AIT (Aug 2025)

ACHIEVEMENTS & LANGUAGES

Top 10, Code Clash – Dayananda Sagar University National Hackathon (Apr 2026) | 2nd Place, HackAbhigna 2025 | Grand Finalist, Cardano Hackathon Asia 2025

Languages: English (Proficient), Kannada (Native), Hindi (Intermediate)
